WARNING

This document contains information affecting the national security of the United States within the meaning of the espionage laws U. S. Code Title 18, Sections 793 and 794. The law prohibits its transmission or the revelation of its contents in any manner to an unauthorized person, as well as its use in any manner prejudicial to the safety or interest of the United States or for the benefit of any foreign government to the detriment of the United States. It is to be seen only by personnel especially indoctrinated and authorized to receive information in the designated control channels. Its security must be maintained in accordance with regulations pertaining to TALENT-KEYHOLE Control System.

PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1a.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

Pushkin Artillery School and Barracks is located 2 kilometers (km) south of the center of Pushkin, and adjoins the Pushkin Airfield to the southwest (Figure 1).

The partially secured installation covers a total of 335 acres and consists of 2 major areas: an administrative and troop housing area and a forested, probable ammunition storage area located 800 meters to the southwest. The housing area covers 282 acres and contains 64 barracks, 33 support buildings, 11 quarters, 23 warehouses, 3 maintenance/storage structures, 6 vehicle storage buildings, 2 motor

parks, 2 underground POL tanks, and 2 athletic fields. The storage area covers 53 acres and contains 2 probable administration buildings, 2 possible security structures, and 9 possible ammunition storage buildings (Figures 2 and 3).

[] KEYHOLE missions of interpretable photography covered the installation between [] Comparative analysis revealed a high level of usage with negligible seasonal variation. No significant changes in the installation were noted during the period.

DESCRIPTION OF INSTALLATION

Railroad Service

A rail spur services the installation. Adjacent to the end of the spur is an area for loading.

Road Service

The installation has direct access to city streets and a good internal road network.

Aircraft Landing Strip

The school and barracks area is adjacent to Pushkin Airfield [] The support area for this airfield adjoins the installation on the southwest.

Administrative and Troop Housing Area

Area D contains 32 support structures, 11 quarters, and 64 administration/barracks buildings. The artillery school is probably located within the walled area which is in the southeast corner of the installation.

General Storage Areas

Area E1 contains 2 storage buildings.
Area E2 contains 14 storage buildings.
Area E3 contains 8 storage buildings.

Ammunition Storage Area

Area F contains 2 probable administration buildings, 9 possible ammunition storage buildings, and 2 possible security buildings. The area is thought to be ammunition storage because of location and security. It is heavily wooded.

POL Storage Areas

Area G is fenced and contains 2 underground tanks ([]) and 1 probable security building. Other POL storage is located in Pushkin.

25X1D

Equipment Storage/Maintenance Areas

Area J1 contains one 265- by 110-foot multistory maintenance/storage building, five single-story vehicle storage buildings (four [] one 110 by 56 feet), 1 single-story utility building, and 1 motor park covering 2.8 acres. There appeared to be 5 rows of vehicles in the motor park in []

25X1D

25X1D

Area J2 contains one 290- by 115-foot multistory maintenance storage building, 1 motor park covering 12.8 acres, and 1 support
